## EDUCATION

---

**University of Washington, Information School**  
Bachelor of Science in Informatics

**June 2026**  
Seattle, WA

**Relevant Coursework:** Computer Programming 1, Computer Programming 2, Intro to Data Science

## SKILLS & TOOLS

---

- **Software Skills:** Java, R, HTML, and CSS
- **Software Tools:** Visual Studio Code, IntelliJ, and RStudio
- **Languages:** English & Vietnamese

## PROJECTS

---

### Personal Portfolio

**September 2023 - Present**

- Creating a personal portfolio displaying information about me, using HTML, CSS

### Fuel Friend: Gas App

**August 2023 - Present**

- Creating a user-friendly website that displays real-time gas prices on Google Maps. This project combines HTML, CSS, and JavaScript to seamlessly integrate Google Maps data for an intuitive interface.

### Website Replication

**September 2023**

- Recreated YouTube homepage with HTML, CSS

### Twitter Trends

**May 2023**

- Created a Java program that allows you to analyze tweets and present this analysis to users. Allows users to get the most frequent word, add tweets, and average letter of all of the tweets.

### Abusrdle

**May 2023**

- Created a Java variant of the game Wordle, using sets and maps to create and manipulate nested collections of data.

### Music Playlist

**April 2023**

- Created a music playlist in Java that allows you to add songs, play songs, and delete specific songs from the playlist, by manipulating and storing data using stacks and queues.

## EXTRACURRICULAR

---

### Web Impact UW

**September 2023 - Present**

Web Developer

- Web development Student organization focused on providing websites for local organizations and underserved communities.
